

Nimue Tinted SPF 40

Vitamin C Moisture Mist

Sun-C New Tinted SPF 40

Introducing a fusion of the Nimue Sun-C SPF40 sunscreen with the added benefit of a light coverage in three skin perfecting shades – light, medium and dark.

A multifunctional tinted sunscreen for facial use that provides a total protective system for the skin – moisturising factors, advanced anti-oxidant complex and colour pigments to compliment the Nimue skin wellness programme.

This emulsion activates the immune system of the skin to provide moisturisation and wrinkle smoothing effects alongside the anti-oxidant complex which assists to reduce free radicals.

Coated pigments are suspended in the Nimue SPF40 sunscreen offering the same sun protection with the addition of pigments which prevent streaking and ensure an even and natural application to the skin. Light reflecting particles defuse light to reduce the appearance of dark circles, fine lines and shadows while leaving the skin with a healthy colouring and a dewy radiant complexion.

The Nimue Sun-C tinted SPF40 blends into all Fitzpatrick skin tones and is formulated for all skin classifications.

***To promote the launch of the Nimue SPF 40 Tinted it is recommended to utilize with our existing and successful Vitamin C Moisture Mist to create a luminous finish after you have applied your SPF 40 Tinted. To help protect against heat, humidity, cold and windy conditions.**
